

NOTICE OF PUBLIC HEARING

Greetings:

This announcement of a public hearing is being sent to you because you are the owner of record of property close to 47 East Main Street, Canton Village. All Village government meetings are open to the public, but as Chair of the Planning Board I am letting you know about this one because it might have direct impact on your property. This is standard practice according to our zoning code.

The proposed project is an allowed use in that zone by special exception. The issuing or denial of a special exception by the Planning Board is a formalized process. One part of that process is this public hearing where the Board gathers information about any impact the project might have directly from the owners, neighbors, and other stakeholders.

The Public Hearing is scheduled for **7:00 PM Tuesday February 11, 2020** at the Canton Municipal Building, 60 Main St., Canton, NY. Written comments may be submitted to the Code Enforcement Officer Jeff Murray at the above address.

I encourage you to attend whether or not you intend to make a statement. Past meetings of this type have been quite informative for all parties who participate at any level.

Barry Walch, Chair
Village of Canton Planning Board
